REPORTS WILL SORT BASED ON EVENT ID KEYWORDS

For example: if you are inside of a typhoon event in the Philippines, you will see only reports about that event.

OR, if you are searching for "Conflict" events within a region (based on the selected area of the map), you will see only reports marked with those keywords.

DISCUSS

THIS WILL BE FURTHER REVIEWED WITH NATASHA AND REMI...

"SECURITY INCIDENTS" ARE PERHAPS JUST ELEMENTS OF EVENTS AND MAY JUST NEED A SPECIAL ICON TO CALL ATTENTION TO THEM WITHIN AN "EVENT."

INFRASTRUCTURE, DISCUSS WITH TOM BEST WAY TO HANDLE...

REMI IS STILL DEBATING BEST WAY TO HANDLE THE INCLUSION OR EXCLUSION OF CONTACT INFO FROM REPORTS

THIS "ADMIN" REPORT DIALOGUE COULD BE WITHIN THE PLATFORM (LIKE THIS) OR MIMIC THE PEER REPORT CARDS.

IDEA TO GIVE NATASHA A WAY OF CREATING A REPORT FROM INFORMATION SHE MAY RECIEVE FROM SOMEONE VIA PHONE (OR ANOTHER WAY) AND TO SUBMIT IT TO THE MAP.

REPORTS GENERATED THIS WAY WILL AUTOMATICALLY SHOW ON THE MAP FOR THE EVENT.
